| 5:15PM-5:30PM | Final gathering and closing circle | Final gathering and closing circle | Final gathering and closing circle | Final gathering and closing circle | Final gathering and closing circle |

Drop off, Snack & Quiet Activity - children will gather in the multipurpose room for a snack and then have the opportunity to look at books, work on homework, play board games with peers, or engage in open art projects. Children will have a space to save on going work.

Open ended tinkering, exploring, and creating - We provide a variety of engaging materials and activities for your child. Children may explore our nearby nature trails, create with our “loose parts” tinkering shelves, or be inspired with our collection of authentic art materials.

Regroup for the Afternoon - children and teachers come together as a group to learn about today’s enrichment class as we transition into the more structured part of our afternoon.

Daily enrichment class - each child is encouraged to participate in a daily learning adventure! Utilizing the variety of spaces our building provides both inside and out children might learn new cooking skills in the community kitchen, explore the Portland Trails behind our building, or discover new artists in our creative expression room.
